

ERASMUS + THE SCHOOL OF MY DREAMS

INTRODUCTION

La Fresneda is the largest residential area in Asturias. It is located in the council of Siero. Its strategic location, halfway through the two main cities in Asturias, has fostered its constant growth in population. Following a long-standing demand for the creation of a high school that allowed students to continue their studies in the area once they finished the Primary Education, the general secondary school La Fresneda opened its doors in September 2021. The school is designed with innovative spaces that entail a transformation of the education community. The pivotal elements of the school project are the active methodologies, open and flexible spaces with movable partitions, organization following fields of studies, joint teaching, sustainability and active participation of students through the governing body of the Students Assembly.

We are currently working with students of 1º 2º 3º ESO (Year 8, 9,10 equivalent). In the following school years, we will be covering all the stages of secondary education.

The school project includes the following programmes:

Programa de Atención a la Diversidad y Acción Tutorial

Programa de espacio de Convivencia, Bienestar y protección del Alumnado

Plan de Igualdad

Plan de Digitalización y Comunicación

Plan de Innovación y Formación del Profesorado

Recreos Activos
